SUMMARY

Full Stack Developer with experience building scalable web applications and production-grade client solutions using React.js, Next.js, TypeScript, Fastify, Prisma ORM, PostgreSQL, and Redis. Contributed to enterprise backend systems and a real-world luxury real estate CRM platform featuring authentication, role-based dashboards, property management, and lead management workflows. Passionate about building clean, scalable, and user-centric applications..

EDUCATION QUALIFICATIONS

Chameli Devi Group of Institution Indore

- B.tech in Computer Science and Engineering. (CGPA: 6. 93) **2022 – 2026**
- **Higher Secondary Education** **2020 – 2021**
 - MP State Open School, Indore
- **Secondary Education** **2018 – 2019**
 - Holy Cross School, Indore

TECHNICAL SKILLS SET

- **ProgrammingLanguages:** JavaScript, TypeScript, SQL, C++, HTML5, CSS3 Frontend: React.js, Next.js (App Router), Tailwind CSS, shadcn/ui
- **Backend:** Node.js, Express.js, Fastify, REST APIs
- **Database & ORM:** PostgreSQL, Prisma ORM, Neon
- **Authentication:** JWT Authentication, Role-Based Access Control (RBAC) Tools: Git, GitHub, Postman, Vercel

PROJECTS UNDERTAKEN

Viva Goa Realty – Enterprise Real Estate CRM Platform

LIVE

- Developed a production-ready luxury real estate platform with a modern responsive UI and role-based dashboards.
- Built secure authentication, protected routes, and buyer/admin workflows using Next.js App Router.
- Implemented property listing, property details, wishlist, recently viewed properties, and personalized buyer dashboard features.
- Designed scalable backend architecture using Prisma ORM and PostgreSQL for efficient property and user management. Contributed to a CRM architecture capable of integrating leads from multiple sources (website forms, MagicBricks, WhatsApp, and future integrations).

MediMeet – Doctor Appointment Web Application | Next JS, Neon, Tailwind, Vonage

LIVE

- **React JS-** Frontend Development
- Built MediMeet, a full-stack **Doctor-Patient** appointment platform.
- Responsive UI smooth routing for seamless **navigation and user experience**.
- Developed core healthcare features including appointment booking, secure **login/signup**, and real- time doctor-patient interaction.

HACKATHONS ATTENDED

- **AceHack 4.0** - University of Engineering & Management, Jaipur, (R.J.)
 - **HackWave 1.0** - Chameli Devi Group of Institutes, Indore, (M.P.)
-

INTERNSHIP UNDERGONE

YpsilonIT SolutionsPvt.Ltd. - MERN-Stack Developer

3rd March - 15th April 2025

- Completed a MERN stack internship, gaining hands-on experience in full-stack web development. Worked with MongoDB, Express.js, React.js, and Node.js.
- Developed and deployed responsive web applications, working with React.js for frontend and Node.js with Express.js for backend.
- Strengthened teamwork and collaboration by working in a group environment, contributing to shared goals and supporting peers.
- Enhanced communication skills by actively participating in team meetings, sharing updates, and seeking feedback.

Mantic Technologies - Trainee Software Developer

April - October 2025

- Enhanced skills in full-stack web development by completing an internship focused on building and deploying applications with the following stack
- MERN stack: MongoDB, Express.js, React.js, and Node.js.
- Worked with MongoDB for data storage and management, learning NoSQL database concepts and real-world usage.
- Learned to manage workload efficiently, balancing multiple tasks and deadlines while maintaining code quality and timely delivery.

Amenses Innovations – Engineering Intern

March 2026 – Present

- Working on scalable backend development using Fastify, TypeScript, Prisma ORM, PostgreSQL, JWT, and Redis.
- Building modular enterprise-style APIs with authentication, validation, role-based access, and layered architecture.
- Developing a fact-checking and verdict engine platform with claims, evidence workflows, and real-time API integration.
- Gaining hands-on experience in production-grade backend architecture, database design, debugging, and system scalability.
