SUMMARY

Full Stack Developer with hands-on experience in building scalable web applications and modular backend systems using React.js, Next.js, Node.js, Express.js, Fastify, Prisma ORM, and PostgreSQL. Developed real-world projects including MediMeet, PurifAI, and an enterprise-style Fact-Checking Platform featuring JWT authentication, evidence workflows, and verdict engine architecture. Skilled in API development, database design, problem-solving, and building production-oriented full-stack applications.

EDUCATION QUALIFICATIONS

Chameli Devi Group of Institution Indore	2022 – 2026
B.tech in Computer Science and Engineering. (CGPA: 6.73)	
Higher Secondary Education	2020 – 2021
MP State Open School, Indore	
Secondary Education	2018 – 2019
Holy Cross School, Indore	

TECHNICAL SKILLS SET

- Programming Languages: C++, JavaScript, SQL, HTML, CSS
 - Frameworks & Libraries: React JS, Express JS, Bootstrap CSS
 - Modern Web Development Stack: React JS (Frontend), Express JS (Backend)
 - Database: SQL
 - Soft Skills: Communication, Team Collaboration, Analytical Thinking.
-

PROJECTS UNDERTAKEN

MediMeet – Doctor Appointment Web Application | Next JS, Neon, Tailwind, Vonage

- React JS**- Frontend Development
- Built MediMeet, a full-stack **Doctor-Patient** appointment platform.
- Responsive UI smooth routing for seamless **navigation and user experience**.
- Developed core healthcare features including appointment booking, secure **login/signup**, and real-time doctor-patient interaction.

Falsity API — Enterprise Fact-Checking Platform | Fastify, TypeScript, Prisma, PostgreSQL, JWT, Redis

- Built a fact-checking backend using Fastify, TypeScript, Prisma, and PostgreSQL with scalable modular architecture
 - Developed JWT authentication, protected APIs, validation, and centralized error handling.
 - Engineered a verdict engine with evidence scoring, contradiction analysis, and explainable reasoning.
 - Implemented claims & evidence workflows with real-time verdict testing UI integration.
-

HACKATHONS ATTENDED

- AceHack** - 4.0 University of Engineering & Management, Jaipur, (R.J.)
- HackWave** - 1.0 Chameli Devi Group of Institutes, Indore, (M.P.)

INTERNSHIP UNDERGONE

Ypsilon IT Solutions Pvt. Ltd. - MERN-Stack Developer 3rd

March - 15th April 2025

- Completed a MERN stack internship, gaining hands-on experience in full-stack web development. Worked with MongoDB, Express.js, React.js, and Node.js.
- Developed and deployed responsive web applications, working with React.js for frontend and Node.js with Express.js for backend.
- Strengthened teamwork and collaboration by working in a group environment, contributing to shared goals and supporting peers.
- Enhanced communication skills by actively participating in team meetings, sharing updates, and seeking feedback.

Mantic Technologies - Trainee Software Developer 25th

April - 25th October 2025

- Enhanced skills in full-stack web development by completing an internship focused on building and deploying applications with the MERN stack: MongoDB, Express.js, React.js, and Node.js.
- Worked with MongoDB for data storage and management, learning NoSQL database concepts and real-world usage.
- Learned to manage workload efficiently, balancing multiple tasks and deadlines while maintaining code quality and timely delivery.

Amenses Innovations – Engineering Intern

March 2026 – Present

- Working on scalable backend development using Fastify, TypeScript, Prisma ORM, PostgreSQL, JWT, and Redis.
 - Building modular enterprise-style APIs with authentication, validation, role-based access, and layered architecture.
 - Developing a fact-checking and verdict engine platform with claims, evidence workflows, and real-time API integration.
 - Gaining hands-on experience in production-grade backend architecture, database design, debugging, and system scalability.
-
